Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-6, 8-12, 17-18 are drawn to a composition for dispersing of a particle, characterized in being obtained by mixing a metal alkoxide containing a metal element having +3 to 5 valence, an organic acid and water.

Group II, claims 7, 13-16 are drawn to a composition for dispersing of a particle, characterized in that said composition is obtained by mixing a titanium alkoxide, at least one type of an organic acid selected from the group consisting of lactic acid, oxalic acid, citric acid and tartaric acid, and water; and that the mixing proportion of said titanium alkoxide and said organic acid (organic acid : titanium alkoxide), is (0.7 - 1.5) : 1 by molar ratio.

2. The inventions listed as Groups **I-II** do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the composition for dispersing of a particle, characterized in being obtained by mixing a metal alkoxide containing a metal element having

Art Unit: 1796

+3 to 5 valence, an organic acid and water See Andou *et al.* (JP, 2003-248254) or Wang *et al.* (CN , 1356363).

Therefore there is not a special technical feature present which links the claims as defined by PCT Rule 13.2. Accordingly, Groups I-II are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept

3. The election of an invention may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. A telephone call was made to Oblon's office on 11/10/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.
